

PRIVATE INSTRUCTION: KUNG FU AND/OR TAI CHI

Private instruction at CSC-Denver/Boulder is best utilized to review and evaluate memorized (*previously learned*) material to receive detailed individual feedback on how to improve and/or prepare for testing/advancement.

Private Instruction can also assist students with schedules and lifestyles that interfere with attending regularly scheduled class times.

Also for those seeking to advance and progress more rapidly and to acquire more insight into each area of training, Private Instruction can accomplish these goals.

And for students who require more attention to details for understanding and comprehension towards advancement, Private Instruction focusing on specific areas or forms can be of great benefit.
